

Acer's new summer 2024 range of gaming monitors are all based on LGD's WOLED panels. First up they have the Predator X27U F3, with LG's latest and fastest 26.5" 2560×1440 480hz 0.01 ms GtG response time OLED display. The monitor also offers Type-C USB, DisplayPort and two HDMI 2.1 ports. The Predator X32 X3 sports a 31.5" 3840×2160 WOLED display that offers a switchable refresh rate - either 4K at 240Hz or FHD at 480Hz. The X32 X3 has a 0.03 ms GtG response time, Type-C USB, DisplayPort and two HDMI 2.1 ports. They have the Predator X34 X5, with a curved (1800 mm radius) 34" 3440×1440 WOLED display, 240Hz, 0.03 ms GtG response time, Type-C USB, DisplayPort and two HDMI 2.1 ports.
