

Microsoft founder Bill Gates' memoir, 'Source Code,' a reflection on his early life and decision to start Microsoft, is set for release in February 2025. It explores his challenges and influences, paving the way for future memoirs on his time starting and leading Microsoft and philanthropy. Microsoft founder **Bill Gates** has announced his memoir, titled 'Source Code', which will come out next year, he wrote on his personal blog. Gates announced on June 4 that pre-orders are open for his memoir, which he dubbed an 'Origin Story' in the blog post. It will be published in February 2025.
