

The Seyitnazar Seydi Turkmen State Pedagogical Institute will hold the IV Open International Internet Physics Olympiad among students of Turkmen and foreign universities on December 4. This was reported by the electronic newspaper

“Turkmenistan: Golden Age.”

The Olympiad will be held in the format of an individual competition in Turkmen, Russian, and English. Participants will have two and a half hours to complete five tasks in mechanics, electrodynamics, optics, and molecular physics. Up to five students from different specialties can participate from each university.
