

Apple Did Not Rename “Gulf of Mexico” to “American Gulf” Despite Order

Criticism from Crenshaw, as noted by the media, reflects behavior often associated with left-wing activists who are known to “push for such changes in language and cultural norms.”

Although Trump’s order aims to change the name, global platforms like Google and Apple will still need time to update their maps, but apparently, some want immediate changes. Moreover, a name change that only concerns the USA is unlikely to affect how the rest of the world refers to this body of water.
