

GSMArena described them as “well-balanced” devices with a striking design, solid specifications, and improved cameras.

For the first time in the Phone (a) series, a telephoto lens is included: the Phone (3a) features a 2x optical zoom (Samsung sensor), while the Phone (3a) Pro boasts a 3x periscope zoom (Sony LYTIA 600).

The smartphones are equipped with a Snapdragon 7s Gen 3 chip, a 5000 mAh battery with 45W charging, and a 6.77-inch AMOLED display (120 Hz, 3000 nits). A new Essential Key allows for quick screenshots and voice notes.

Nothing OS 3.1 (Android 15) comes pre-installed, with three years of updates promised.

The phones feature a glass and aluminum body with IP64 protection. The Phone (3a) is available in white, black, and blue, while the Pro comes in black and gray. Prices start at €329 for the Phone (3a) and €459 for the Phone (3a) Pro.
