

Teachers from IUHD, within the framework of the Erasmus+ program, are on a working visit to the "1 Decembrie 1918" University in the city of Alba-Iulia. The visit takes place from March 24 to 28, 2025.

On the first day of the visit, during meetings with Romanian colleagues, Turkmen educators exchanged experiences in developing online courses and using technology in managing educational processes. The sides paid special attention to discussing the prospects of long-term cooperation based on the existing Memorandum of Cooperation between the International University for the Humanities and Development and the "1 Decembrie 1918" University of Alba-Iulia, particularly the establishment of "Dual Degree" programs and postgraduate education.

It is expected that at the end of the visit, the teachers of IUHD will familiarize themselves with the experience of one of Romania's leading universities in developing and improving curricula, as well as in conducting scientific research in relevant areas.
