

TCL unveils a massive 98-inch Mini LED Q9L Pro TV with a refresh rate of up to 288 Hz

TCL has announced the Q9L Pro lineup—flagship Mini LED TVs ranging from 55 inches to 98 inches in size.

The largest model features 3456 local dimming zones, brightness levels up to 4500 nits, and a refresh rate of up to 288 Hz.

The screens are equipped with Butterfly Star Screen technology featuring an anti-glare coating (only 0.5% reflection), support 98% DCI-P3 color coverage, and are powered by the A73 processor and Mali-G57 MC1 graphics.

The devices come with 4 GB of RAM and 64 GB of built-in storage, support 4K resolution and HDMI 2.1 (4 ports), and offer features like ALLM, MEMC, and FreeSync Premium Pro.

High-end models are equipped with an Onkyo 2.1.2 audio system with Dolby Atmos and a subwoofer. The operating system is Lingxi 3.0 with the Fuxi AI assistant. The 98-inch TV is priced at 16,999 yuan (approximately \$2340). A complimentary wall mount and installation are included, though only in China.
