

Colvir Software Solutions turns 25! This company was founded in the United Kingdom in 2000 and has become a leading developer of automated solutions for the banking and financial sector. In 2025, Colvir Software Solutions celebrates its 25th anniversary, having successfully completed more than 600 projects.

Colvir Software Solutions plays a key role in the development of IT and banking systems in Turkmenistan. The company has been operating in the country for more than 17 years and is implementing various projects to support digital transformation.

The company not only automates banking systems but also develops ERP solutions, internet banking services, mobile banking technologies, and data storage platforms. Additionally, Colvir Software Solutions has launched educational projects across Central Asia, including Turkmenistan, to support IT community development and enhance the qualifications of banking professionals.

Today, the company celebrated its 25-year milestone alongside the united professionals of Turkmenistan's banking sector.
