

## Samsung Galaxy S25 Ultra topped Tom's Guide's list of the best 9 Android smartphones

The model features high-end hardware, an advanced camera with a new wide-angle module, and Galaxy AI functions. It also supports a stylus, making it a versatile choice for demanding users.

In second place is the Google Pixel 9a, recognized as the best in terms of price-to-performance ratio. It has powerful hardware, optimized software, and a vibrant display, making it an excellent choice for those who want maximum capabilities at a reasonable price.

Third place goes to the Google Pixel 9 Pro XL, known for its advanced AI features. The OnePlus 13 received high marks for fast charging, while the Nothing Phone 3a Pro was named the best mid-range smartphone with a unique design.

The compact Samsung Galaxy S25 was highlighted as the best choice for those who value high performance in a small body. In the foldable smartphone category, the OnePlus Open was recognized as the best, while the Motorola Razr Plus (2024) was named the most successful flip phone.
