

Thai Logistics and Property Group WHA to Build Two Industrial Parks in Vietnam

Thailand's WHA logistics and property group plans to invest \$380 million to build two industrial parks in Vietnam. This initiative aims to meet the growing demand from companies moving into the rapidly expanding manufacturing hub in Southeast Asia.

These industrial parks will provide global corporations with production facilities in Vietnam, further attracting foreign investments. In recent years, Vietnam has become one of the fastest-growing industrial centers in the region.
