

Analysts by AliExpress CIS presented the rating of the most popular projectors in the Russian market for the first half of 2025. All models from the TOP-5 support the National Resolution Full HD and are able to play a 4K video.

The sales leader has become a compact **ThundeaL TD80W**. The device is equipped with a 450 lumen LED lamp and a contrast of 10,000: 1. The image size varies from 40 to 200 inches, and the built-in Wi-Fi 6 and Bluetooth 5.0 modules provide a wireless connection. HDMI, USB and AV interfaces are also provided, built -in speaker and manual image tuning.

ThundeaL TD80W

In second place was **Magcubic Hy300 Pro 4K** - A portable projector with a brightness of 260 lumens and a resolution support of 1280×720 . It is equipped with a rotary building, an autostarting of the image, a built-in speaker and 16 GB of memory.

Magcubic Hy300 Pro 4K

I took the third line **ThundeaL TD92 Pro**. The projector is equipped with a brightness of 1,500 lumens, a contrast of 12,000: 1 and the National Full HD. The device supports wireless connections and control from the remote control, and the screen rotation of 360 degrees simplifies the installation.

Thundeal TD92 Pro

The rating also entered **Magcubic NATIVE 1080P**. The projector is distinguished by the support of Android 11, Wi-Fi 6 and Bluetooth 5.2. The brightness is 650 lumens, and the diagonal of the image is from 30 to 300 inches.

Magcubic NATIVE 1080P

Closes the five **Touyinger Q12W Pro** With the brightness of 2800 lumens, a system of autofocus, Android 12 and a triple sound system. It is suitable for games, films and presentations in daylight.

Touyinger Q12W Pro

According to AliExpress, the average delivery time from China to Russia in March was 14.1 days. About 87% of the parcels are sent to Russia directly by air.
