

AliExpress revealed the top 5 of the indestructible smartphones 2025: what did the Russians choose?

AliExpress CIS published a rating of the most popular protected smartphones in Russia for the first half of 2025. In the five leaders - models from manufacturers of BlackView, IIF150 and OUKITEL. The main characteristics of all smartphones are a high level of protection against moisture, dust and mechanical damage (IP68, IP69K and MIL-STD-810H), as well as the battery capacity-from 10,000 mAh and higher.

BlackView BV8200 took first place in the ranking. This is a smartphone with a 6.5-inch screen and an update frequency of 120 Hz. It is equipped with the MediaTek Helio G100 processor and operates on Android 14. The device has 12 GB of RAM and 256 GB of internal memory, as well as 50 and 32 MP cameras. The battery here is smaller than competitors - 8800 mAh, but a quick charge of 45 watts is supported.
