

Official prices for the repair of the new folding smartphone Samsung Galaxy Z Fold 7 became known.

Replacing the main flexible display will cost \$ 890 (€ 761), and \$ 611 (€ 525) will have to pay for the replacement of the external (cover) of the screen. These prices are indicated without taking into account the cost of the work of masters, if the repair is carried out in third -party services.

For comparison, the repair of a folding display in Galaxy Z Flip 7 costs \$ 400 (€ 342), and the replacement of the external Flex Window - \$ 240 (€ 207). At the same time, such work is not covered with a standard Samsung guarantee, since screen damage is considered random.

Owners are recommended to make a subscription to Samsung Care+insurance, which covers random damage. For Galaxy Z Fold 7, the cost of insurance is \$ 13 per month or \$ 259 per year, while replacing the broken screen or rear panel will cost only \$ 29 for each case.

The cost of the Galaxy Z Fold 7 starts at \$ 1999, so the screen replacement for almost \$ 900 can be unreasonably expensive without insurance.
