

Google, it seems, accidentally revealed the entire line of her new Pixel 10 smartphones 10 before the official announcement. On Wednesday, Android Authority found a hidden banner with four models on Google Play Store: Pixel 10, Pixel 10 Pro, Pixel 10 Pro XL and Pixel 10 Pro Fold.

The banner is now not visible to ordinary users, probably journalists have found a way to activate it. The image shows all four phones with the inscription "Meet the new Pixel 10 series." Three models-Pro XL, Pro Fold and Pro-are represented in silver-blue color "Moonstone", and the base Pixel 10-in bright blue.

The design and colors of the devices coincide with the latest leaks and official teasers from Google. In addition, the banner indicates a \$ 50 discount on these smartphones, valid until October 13.

It is expected that Google will officially present the entire Pixel 10 series at the Made by Google event on August 20.
