

Google began the pixel 10 teaser - less than a month left before the release

Google officially began to teaser her new flagship series of Pixel 10 smartphones, which remains less than a month to the release.

The company planned the presentation of Made by Google on August 20, where Pixel 10 debut is expected, Pixel Watch 4 smart watches and, possibly, new Pixel Buds 2A headphones. The main attention, of course, will be focused on new smartphones.

In the official Google Store online store, a page with promotional materials of the upcoming device has already appeared. Those who wish are offered to register an email address in order to first receive notifications about the start of sales.

Android Authority

At the same time, Google promises to send a special promotional code for an exclusive offer on the day of launch Pixel 10.

Although the company does not yet disclose details about new devices, leaks have already shed light on many characteristics. For example, recently, images of the younger Pixel 10 model in new colors have fallen into the network.
