

Redmi 15 (4G) will receive a 108-MP camera, a battery with autonomy of a week and a price tag of only € 185

Xiaomi is preparing to launch a budget smartphone Redmi 15 (4G), and thanks to the Italian retailer Epto, almost all the characteristics of the device are already known.

Judging by the leak, the novelty will receive an impressive camera and outstanding battery life at a very attractive price.

Redmi 15 (4G) will be equipped with a 6.9-inch IPS screen with a resolution of  $2340 \times 1080$  pixels. An unnamed eight -core processor with a frequency of up to 2 GHz is responsible for performance.

The main feature will be a 7000 mAh battery, which with a moderate load can provide up to a week of work without recharging. Fast charging – 33 watts.

The smartphone will also receive a 108-MP main camera, a 13 megapixel front, a side of the fingerprint scanner, support for NFC, Wi-Fi, Bluetooth 5.2, a Microsd slot, a USB-C port and dust protection according to the IP64 standard. The novelty under the control of Hyperos based on Android 15 works.

Redmi 15 (4G) will be available in the only version – 8/256 GB at a price of € 185. Corps colors: black, purple and gray. It is expected that the official launch in Europe will be held in the near future.
