

RTX 4060 Ti 8 GB, 3050 and 5060 Ti 16 GB - the best -selling video cards in the Russian Federation

M. Video Eldorado announced a threefold increase in the sales of video cards in the first half of 2025. Demand increased by 233% both in quantity and revenue. Such growth, obviously, is associated with computer games, tasks based on AI and the emergence of new RTX 50 models.

The most popular in revenue were video cards of medium and advanced level from Palit. Leading **Palit GeForce RTX 4070 Super Dual OC** 12 GB. TOP also included **Palit RTX 4070 Dual** 12 GB and **Paul RTX 4060 Ti Dual V1** 8 GB - the best choice for budget assemblies up to 100 thousand rubles.

In terms of sales in the first place - **Paul RTX 4060 You V1** she is chosen for good performance in Full HD. New items **RTX 50** including **Palit RTX** 16 GB almost immediately became popular due to the price ratio/quality.
