

Xiaomi updated Redmi A27U Type-C until the version of 2026. The new 27-inch monitor is already available for pre-order on JD.com: the retail price is 1799 yuan (\$ 250), pre-order-1399 yuan (\$ 194).

The monitor is equipped with an IPS panel with a resolution of  $3840 \times 2160$ , an update frequency of 60 Hz and a viewing angle of  $178^\circ$ . It supports the DisplayHDR 400, provides brightness up to 400 threads. Coating of the color space-100% SRGB and 93% DCI-P3, support for 10-bit color allows you to display up to 1.07 billion colors with an accuracy of  $\Delta E < 1$ .

For comfortable work, the eye protection technologies have been added: low blue light and a lack of flicker.

The monitor is equipped with a universal USB Type-C port that supports video, data transfer and charging up to 90 watts for laptops and tablets. There are also two HDMI 2.0, one DP 1.4, two USB 2.0 ports and an audio unit for headphones.

The stand allows you to adjust the height, inclination, turn and turn, the monitor can be fixed on the wall, and the image is automatically rotated when used in portrait mode. Xiaomi offers a three -year guarantee for this model.
