

Caviar announced the custom iPhone 17 Air without cameras: only  
19 copies

On September 9, Apple will show the new iPhone line, among which there will be the thinnest brand smartphone – iPhone Air. The Caviar brand decided to make it even more unique by replacing the rear panel and presenting its own limited versions.

iPhone 17 Air Carbon is the lightest cast in the history of Caviar. The smartphone is made in the ultra -horn carbon, completely devoid of cameras and symbolizes the idea of “freedom” and “protection of personal life”. Each of the 19 released specimens has a unique engraving.
