

The Ministry of Science and Higher Education of Russia proposed using the Max National Messenger to create group chats of freshmen. According to the department, this will help new students to adapt to university life faster.

The chat groups will allow university administrations to promptly inform students about changes in the schedule, upcoming events and other important events. At the same time, any user of the messenger will be able to create such a chat and invite his classmates to him.

Earlier it became known that from August 1 to 21 in Tatarstan [will pass](#) The first hacaton of digital solutions for the MAX platform, in which students of grades 5-11 will take part. The event was organized by the Ministry of Digital Development of the Republic together with VK Education and the developers of the Max messenger.
