

Motorola introduced in India a new version of the Edge 60 Pro smartphone with wood trim – Walnut Finish. The update applies only to the appearance, the characteristics of the phone remained the same.

Sales of the Walnut Finish version will begin on August 25, 2025 via Flipkart and the official website of Motorola India. The price also has not changed. There are no special offers for launch yet.

Motorola Edge 60 Pro is equipped with a MediaTek Dimensity 8350 EXTREME, MALI-G615 MC6, LPDDR5X RAM and UFS 4.0 memory. It works on Android 15 with the promised three years of the system updates and four years of security.

The smartphone received a 6.7-inch curved Poled-screen with a resolution of 1.5K, an update frequency of 120 Hz and a brightness of 1400 threads. Cameras: 50 MP basic with optical stabilization, 50 MP Ultrashirokaya, 10 megapixels with 3-fold zoom and 50 megapixel front.

The battery of 6000 mAh supports 90 watts of wired and 15 W wireless charging. Among the functions: Wi-Fi 6e, Bluetooth 5.4, Dolby Atmos stereodynamics, scanner printing on the screen, IP68/69 water protection and MIL-STD 810H Military Standard.
