

Galaxy Z Flip7 headed the top 6 folding smartphones of 2025 according to Tom's Guide

The Tom's Guide portal published a rating of the best folding smartphones of 2025, where the Samsung Galaxy Z Flip7 became the leader.

Experts noted it as the most balanced device with a flexible screen with improved autonomy, a quick processor, high-quality cameras, a thin case and healthy AI functions at a reasonable price.

In second place is the Samsung Galaxy Z Fold7 in the form factor of a book with a 200 MP camera, a thin case, a powerful chip and a new reliable hinge.

The third line was occupied by Motorola Razr Ultra 2025, which is distinguished by record autonomy among flexible models and AI-functions of Moto AI. The best budget option was Motorola Razr 2025 with a good balance of characteristics and stylish design.

The TOP also included OnePlus Open, who remains the leader in multitasking thanks to the Open Canvas function, and Google Pixel 9 Pro Fold, recognized as the best in AI, especially in editing photos.
