

On August 21, the presentation of Honor Magic V Flip 2 will be held in China. The main feature of the novelty is the largest battery among all modern clashes, the media write.

It is officially confirmed that the device will receive a battery with a capacity of 5,500 mAh. For comparison: the record before that held Xiaomi Mix Flip 2 with a battery of 5 165 mAh. And he also does not have wireless charging. Honor offers not only a more capacious battery, but also fast charging - 80 watts wired and 50 W is wireless.

In addition, the smartphone is equipped with a strong UTG glass. The manufacturer claims that after 350,000 folding the fold remains almost inconspicuous, and the appearance does not change even after five years.

According to rumors, the Magic V Flip 2 will receive the main folding screen of 6.82 inch Ltpo OLED with a resolution of 1.5K and a frequency of 120 Hz, as well as an external 4-inch OLED display with the same 120 Hz. Cameras: Frontal at 50 MP, behind - the main sensor of 200 megapixels and an ultrashirokiy at 50 megapixels.

The smartphone will work on the Snapdragon 8 Gen 3 with support of up to 16 GB of RAM and 1 TB of memory.
