

Android Headlines insiders said that the new Samsung Galaxy Buds 3 Fe budget headphones will be represented by Samsung in September, probably with the Galaxy S25 Fe smartphone.

According to insider renders, Galaxy Buds 3 Fe look like the previous Galaxy Buds 3 models. It is noted that the design of “state employees” is quite logical, since Samsung uses the same name scheme.

Recently, Galaxy Buds 3 Fe passed checks that showed that they could be charged quickly: headphones – at a speed of 1 W, a cover – 4.5 watts. According to insiders, this is expected.

The image shows black Galaxy Buds 3 Fe, but, like the previous Galaxy Buds Fe models, they will be available in white.

As noted, usually Samsung produces all its products that end with FE, at about the same time, usually in September or early October. According to the latest rumors, the Galaxy S25 Fe will be released at the end of September, most likely in the last week of the month. Therefore, Galaxy Buds 3 Fe, most likely, will come out at about the same time.
