

Lenovo released the Battle 7000 gaming laptop with RTX 5070 and  
Ryzen 9 8945HX for \$ 1200

Lenovo introduced the new Battle 7000 (2025) gaming laptop in configuration with the NVIDIA RTX 5070 video card and AMD Ryzen 9 8945HX processor.

In China, the novelty is sold for 8499 yuan (\$ 1200), and taking into account state subsidies, the price is reduced to 6799 yuan (about \$ 960).

Battle 7000 is equipped with the 16-core Ryzen 9 8945HX, 32 GB of DDR5-5200 in two-channel mode and fast SSD for 1 TB with the PCIe 4.0 interface.

The cooling system uses three fans and special heat -conducting plates, providing up to 200 watts of the total heat package - 120 W for CPU and up to 115 W for GPU.
