

Media – the exit of the folding Google Pixel 10 Pro Fold was moved to October

According to media sources, Pixel 10, 10 Pro and 10 Pro XL smartphones will be available for pre -order August 20, and sales will begin on August 28. However, the folding Pixel 10 Pro Fold will only be on sale on October 9th. The delay will also affect the smart watches of the Pixel Watch 4 and the Pixel Buds 2A headphones, but all three devices will still be presented at the Google event on August 20.

It seems that the delay is related to the difficulties of production. Pixel 10 Pro Fold uses the new Tensor G5 chip, like ordinary models, but its unique design – including the new IP68 water and dust protection mechanism – is more difficult to make quickly in large quantities.

Also, the new Pixel Watch 4 will receive an updated charging system, and the Pixel Buds 2A – improved sound and communication, which can also affect the terms of release.
