

In Portugal, the Mediamarkt retailer prematurely published the Samsung Galaxy S25 Fe page, thereby actually confirming the characteristics of the smartphone.

The device will receive a 6.7-inch screen of Dynamic AMOLED 2X with a resolution of 1080 x 2340 pixels, an update frequency of 120 Hz and protection Gorilla Glass Victus+.

The new item will be based on the Exynos 2400 chip, complemented by 8 GB of RAM and 128 GB of built-in (other options are expected).

The cameras include 50-MP The main module with OIS, 12-MP Ultrashiroki, 8-MP TV with 3-fold zoom and stabilization, as well as a 12-megapixel frontier.

GSMarena

The smartphone is equipped with an ultrasound scanner of prints in the screen and a 4900 mAh battery with a support of 45-in wire and 15-into wireless charging.

Dimensions-161.3 × 76.6 × 7.4 mm, weight-190. In Listing, only a dark blue color appeared, but there will probably be others.

Mergulhe no mundo da IA
