

Presented Infinix Hot 60i 5G with the design of the iPhone 17 Air and a screen 120 Hz

Infinix introduced the smartphone Hot 60i 5G, the official announcement of which is scheduled for August 16. The model received a design in the style of the iPhone 17 Air and became a continuation of the 4G version released in July.

According to the page on Flipkart, the novelty is equipped with a MediaTek Dimensity 6400 processor, 4 GB of RAM and 128 GB of internal memory. The display is a 6.75-inch LCD with a resolution of HD+ and an update frequency of 120 Hz.

The smartphone operates Android 15 with the XOS 15 shell and offers a set of built-in and function.

GSMarena

The main chamber of 50 MP is located on the rear panel, and a 6000 mAh battery is responsible for autonomy. Interestingly, despite the obvious budget, the device has a degree of IP64 protection from dust and spray.

Not one design.
