

Record Camerophones Huawei Pura 80 went on sale in M. Video and Eldorado

In the stores of M. Video Eldorado, sales of new flagship smartphones Huawei-models Pura 80 Ultra and Pura 80 Pro began. These devices are distinguished by cameras, design and performance.

Pura 80 Ultra is equipped with a unique system of two telephoto lenses, which allows you to take clear pictures from different distances - both close -ups and general personnel. The camera with HDR technology captures light and dark areas at the same time. A large 1-inch sensor provides a record level of light capture.

Pura 80 Pro also received a smart diaphragm, which automatically adapts to the conditions of shooting. The smartphone accurately transfers colors even in low light.

Huawei

Both models support fast charging - wired (up to 100 W) and wireless (up to 80 W), which

allows you to completely charge the phone in less than an hour. The devices are protected by the strong glass Kunlun Glass 2.0 and equipped with 5170 mAh batteries.

Smartphones are also integrated with the search for Yandex in the image and voice assistant Alice. When buying, users receive 3 months of subscription to Alisa Pro.
