

The insider showed how the three -scabbard Galaxy Z Trifold will develop

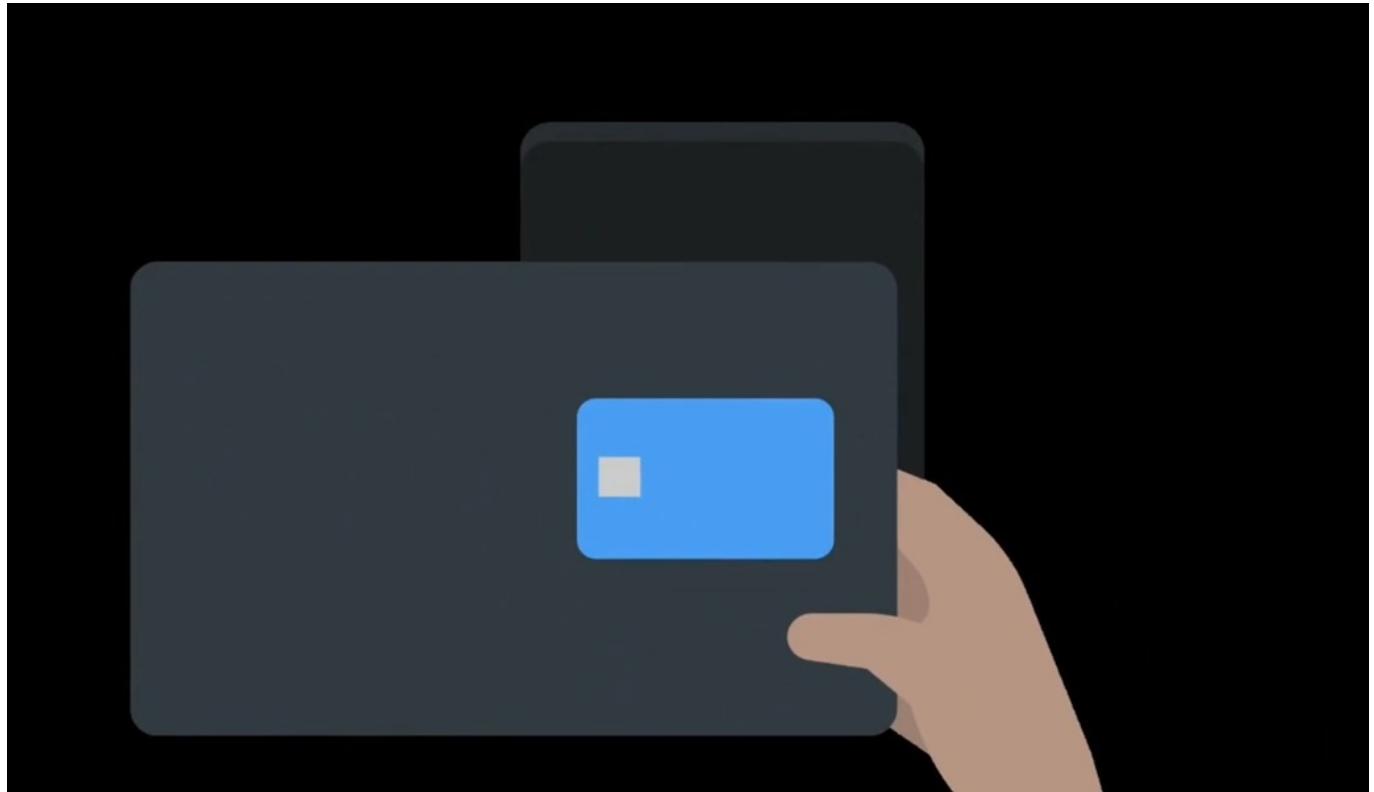

The other day there were rumors that Samsung has improved the work of its new three - scabbard smartphone, which is still presented as Galaxy Z Trifold. According to TechHighest insider, the model should become more convenient and functional.

In the new animations about the functions of the One UI 8 firmware on this device, Techhighest showed how the device folds, charges through the wireless network, how to charge other things with its help and how to use it in stores. These show that even when the device is completely deployed, it can charge the tablet, other gadgets and be used to pay for purchases.

Trifold will be three times and will look like the letter "G", which is similar to the Samsung Flex G. The model will have a large 10.1 "screen, a powerful processor and a high - resolution camera. It is also possible that a new mode will appear in the One UI 8 for convenient work with several applications at the same time.

Although it is not yet known how much Trifold will cost, it is assumed that the price will vary from \$ 3000 to \$ 3500. Detailed information should be disclosed by Samsung at the IFA 2025 exhibition, which will be held on September 4.
