

Xiaomi introduced Power Bank at 10,000 mAh with fast charging and magsafe

Xiaomi released in China a magnetic external battery for charging phones and other gadgets. He can charge three devices at the same time. The kit includes a stand on which you can put the phone at a convenient angle.

The battery is equipped with 17 magnets for charging iPhone, supports Magsafe. Power Bank works with the iPhone 12 and newer, except for the iPhone 16E. Magsafe can be used with other phones if they have QI support support.

The set includes a USB-C cable with an L-shaped connector, which is already built into the battery itself. This cable supports fast charging up to 33 watts and can charge the phone and other devices. Wireless charging works with a capacity of up to 15 watts and is suitable for most smartphones with QI support.

On the front panel of the battery there is a digital display showing the level of charge, charging status and possible errors. Inside Power Bank, two batteries of 5000 mAh. According to Xiaomi tests, this battery can completely fully charge the iPhone 16 Pro or Xiaomi 15 Pro.

The battery supports different types of charging, such as PD3.0, QC3.0, PPS, Apple 2.4A and BC1.2. It is suitable for devices Xiaomi, Apple, Huawei, OnePlus, Oppo and Vivo. He has nine levels of protection against overheating, short circuit, overvoltage and other problems.

The battery is available in four colors: blue, purple, light brown and dark gray. He has a round shape to be easy to hold in his hand. Xiaomi confirmed that the battery meets all the requirements for air travel and is safe to use.

The device can be bought for 169 yuan (approximately 1879 rubles).
