Xiaomi introduced in Europe Smart Temperature and Humidity Monitor 3 Mini after launch in China. The device is small-53 × 45.3 × 13 mm, weighs only 30 g. It is equipped with a 2.1-inch LCD display with a thin frame of 5.1 mm. The monitor is equipped with a sensor, which fixes temperature changes with a step of 0.1 ° C and humidity by 1 %.

The data is updated every six seconds, and the screen shows the temperature, humidity and special emoji, reflecting the level of comfort.

The power is provided by the CR2450 battery. In standard mode, it works up to two years, and when the energy -saving mode is turned on through the Xiaomi Home application – up to three years.

The device supports Bluetooth 5.0. You can turn on the device through the device, for example, with an increase in temperature or humidifier, when the air is too dry. Temperature and humidity data are stored for up to three months locally and up to six months in the cloud.

The monitor measures the temperature from 0 ° C to 60 ° C and humidity from 0 to 99 %.

It costs € 14.99.
