

Tricolor reduced the price of the Maximum subscription with online cinemas and 300+ channels by 20% until the end of October

The company “Tricolor” launched a new action, within the framework of which the cost of the flagship subscription “Maximum” is reduced. Until October 31, the service can be connected for 2800 rubles instead of standard 3,500 rubles. The action is timed to the anniversary of the operator.

Subscription “Maximum” provides access to more than 300 television channels, including satellite and online broadcasting. The package includes channels for children’s and adult audiences, as well as content from Premier and AmediaTeka platforms.

Subscribers gain access to the online cinema “Tricolor Cinema and TV” with an extensive library of films and series. The subscription also includes priority service and the Iron Guarantee service, which allows you to replace a faulty prefix with a new one for a symbolic fee of one ruble.
