

In honour of the International year of peace and trust, specialists from the Turkmen state institute of physical culture and sports have prepared a collection of abstracts based on the results of the International scientific and practical conference «Sport - ambassador of peace», held at the university.

The collection broadly reflects the principles of Turkmenistan's foreign policy, which focus on strengthening international cooperation, friendship and brotherhood, trust, and peace through sports diplomacy.

The collection presents abstracts of scientific presentations by forum participants from Uzbekistan, Russia, Kazakhstan, Belarus, Azerbaijan, Kyrgyzstan, Türkiye, Romania, the USA, Armenia, as well as representatives of the scientific, educational, and sports sectors of our country.

Scientific reports by Turkmen and foreign experts on topics such as «Neutrality and the principles of sport contribute to strengthening friendship and peace», «The philosophy of olympism and the promotion of a healthy lifestyle», and «Innovative technologies in physical education and sports» will be useful for university professors, students, coaches, athletes, and a wide range of interested readers.

It should be noted that the abstracts of the reports from the International scientific and practical conference «Sport - ambassador of peace», presented in the new collection, are also available on the Google Scholar platform.
