

On the occasion of the New Year, the scale of lively shopping has begun to expand in the regions of the country, as well as in the cities of Ashgabat and Arkadag, in shopping centers, bazars, and shops.

Green fir-trees, various toys for their decoration, and lighting fixtures give a unique decoration to festive shopping centers. Also, souvenirs placed in baskets, boxes, and other containers in various national colors are offered to the population. Souvenirs are also made here according to the wishes of buyers.

Various types of sweets, chocolates, and confectionery products produced by domestic entrepreneurs and leading world manufacturers make up the main part of the gifts.
